

CTLA-4

Rabbit Monoclonal antibody(Mab) Catalog # AD80586

Specification

CTLA-4 - **Product** info

Application Primary Accession Reactivity Host Clonality Calculated MW IHC-P P16410 Human Rabbit Monoclonal 24656

CTLA-4 - Additional info

Gene ID 1493 Other Names Cytotoxic T-lymphocyte protein 4, Cytotoxic T-lymphocyte-associated antigen 4, CTLA-4, CD152, CTLA4, CD152

Dilution IHC-P~~N/A

Storage Maintain refrigerated at 2-8°C

CTLA-4 - Protein Information

Name CTLA4

CD152
Inhibitory receptor acting as a major
negative regulator of T-cell responses. The
affinity of CTLA4 for its natural B7 family
ligands, CD80 and CD86, is considerably
stronger than the affinity of their cognate
stimulatory coreceptor CD28.
Cell membrane; Single-pass type I
membrane protein. Note=Exists primarily
an intracellular antigen whose surface
expression is tightly regulated by
restricted trafficking to the cell surface
and rapid internalization
Widely expressed with highest levels in
lymphoid tissues. Detected in activated
T-cells where expression levels are 30- to
50-fold less than CD28, the stimulatory
coreceptor, on the cell surface following

activation.

CTLA-4 - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- <u>Dot Blot</u>
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
