

GM2A Antibody (Internal)
Rabbit Polyclonal Antibody
Catalog # ALS11174**Specification**

GM2A Antibody (Internal) - Product Information

Application	IHC-P
Primary Accession	P17900
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	21kDa KDa
Dilution	IHC-P~~N/A

GM2A Antibody (Internal) - Additional Information**Gene ID** 2760**Other Names**

Ganglioside GM2 activator, Cerebroside sulfate activator protein, GM2-AP, Sphingolipid activator protein 3, SAP-3, Ganglioside GM2 activator isoform short, GM2A

Target/Specificity

Human GM2A. BLAST analysis of the peptide immunogen showed no homology with other human proteins.

Reconstitution & Storage

Long term: -70°C; Short term: +4°C

Precautions

GM2A Antibody (Internal) is for research use only and not for use in diagnostic or therapeutic procedures.

GM2A Antibody (Internal) - Protein Information**Name** GM2A ([HGNC:4367](#))**Function**

The large binding pocket can accommodate several single chain phospholipids and fatty acids, GM2A also exhibits some calcium- independent phospholipase activity (By similarity). Binds gangliosides and stimulates ganglioside GM2 degradation. It stimulates only the breakdown of ganglioside GM2 and glycolipid GA2 by beta-hexosaminidase A. It extracts single GM2 molecules from membranes and presents them in soluble form to beta-hexosaminidase A for cleavage of N-acetyl-D- galactosamine and conversion to GM3 (By similarity). Has cholesterol transfer activity (PubMed:17552909).

Cellular Location

Lysosome.

GM2A Antibody (Internal) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
