

PSPH Antibody (aa1-225, clone 3G12)
Mouse Monoclonal Antibody
Catalog # ALS12551**Specification**

PSPH Antibody (aa1-225, clone 3G12) - Product Information

Application	WB, IHC-P, E
Primary Accession	P78330
Reactivity	Human, Mouse
Host	Mouse
Clonality	Monoclonal
Calculated MW	25kDa KDa
Dilution	WB~~1:1000 IHC-P~~N/A E~~N/A

PSPH Antibody (aa1-225, clone 3G12) - Additional Information**Gene ID** 5723**Other Names**

Phosphoserine phosphatase, PSP, PSPase, 3.1.3.3, L-3-phosphoserine phosphatase, O-phosphoserine phosphohydrolase, PSPH

Reconstitution & Storage

Long term: -20°C; Short term: +4°C; Avoid freeze-thaw cycles.

Precautions

PSPH Antibody (aa1-225, clone 3G12) is for research use only and not for use in diagnostic or therapeutic procedures.

PSPH Antibody (aa1-225, clone 3G12) - Protein Information**Name** PSPH ([HGNC:9577](#))**Function**

Catalyzes the last irreversible step in the biosynthesis of L-serine from carbohydrates, the dephosphorylation of O-phospho-L-serine to L-serine (PubMed:12213811, PubMed:14673469, PubMed:15291819, PubMed:25080166, PubMed:9222972). L-serine can then be used in protein synthesis, to produce other amino acids, in nucleotide metabolism or in glutathione synthesis, or can be racemized to D-serine, a neuromodulator (PubMed:14673469). May also act on O-phospho-D-serine (Probable).

Cellular Location

Cytoplasm, cytosol.

PSPH Antibody (aa1-225, clone 3G12) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

PSPH Antibody (aa1-225, clone 3G12) - Images

Anti-PSPH antibody IHC of human kidney.

Cell lysates of Mouse brain (30 ug) were resolved by SDS-PAGE, transferred to PVDF membrane and...

PSPH Antibody (aa1-225, clone 3G12) - Background

Catalyzes the last step in the biosynthesis of serine from carbohydrates. The reaction mechanism proceeds via the formation of a phosphoryl-enzyme intermediates.
