

#### FTL Antibody

Purified Mouse Monoclonal Antibody Catalog # AO1949a

## Specification

# FTL Antibody - Product Information

Application Primary Accession Reactivity Host Clonality Isotype Calculated MW **Description**  WB, IHC, ICC, E <u>P02792</u> Human Mouse Monoclonal IgG1 20kDa KDa

This gene encodes the light subunit of the ferritin protein. Ferritin is the major intracellular iron storage protein in prokaryotes and eukaryotes. It is composed of 24 subunits of the heavy and light ferritin chains. Variation in ferritin subunit composition may affect the rates of iron uptake and release in different tissues. A major function of ferritin is the storage of iron in a soluble and nontoxic state. Defects in this light chain ferritin gene are associated with several neurodegenerative diseases and hyperferritinemia-cataract syndrome. This gene has multiple pseudogenes.

Immunogen Purified recombinant fragment of human FTL (AA: FULL(1-157)) expressed in E. Coli.

Formulation

Purified antibody in PBS with 0.05% sodium azide.

### FTL Antibody - Additional Information

Gene ID 2512

**Other Names** Ferritin light chain, Ferritin L subunit, FTL

Dilution WB~~1/500 - 1/2000 IHC~~1/200 - 1/1000 ICC~~N/A E~~1/10000

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

FTL Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

# FTL Antibody - Protein Information

#### Name FTL

Function

Stores iron in a soluble, non-toxic, readily available form. Important for iron homeostasis. Iron is taken up in the ferrous form and deposited as ferric hydroxides after oxidation. Also plays a role in delivery of iron to cells. Mediates iron uptake in capsule cells of the developing kidney (By similarity). Delivery to lysosomes by the cargo receptor NCOA4 for autophagic degradation and release or iron (PubMed:<a href="http://www.uniprot.org/citations/24695223">http://www.uniprot.org/citations/24695223</a> target=" blank">>24695223</a>).

**Cellular Location** 

Cytoplasmic vesicle, autophagosome. Cytoplasm {ECO:0000250|UniProtKB:P29391}. Autolysosome {ECO:0000250|UniProtKB:P29391}

#### **FTL Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
