

Drosophila SUMO Antibody (N-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP1287a

Specification

Drosophila SUMO Antibody (N-term) - Product Information

Application	,E
Primary Accession	O97102
Reactivity	Human, Drosophila
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG

Drosophila SUMO Antibody (N-term) - Additional Information

Gene ID 33981

Other Names

CG4494-PA; LD07775p; Smt3; Ubiquitin-like protein SMT3

Target/Specificity

This Drosophila SUMO antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide selected from the N-terminal region of Drosophila SUMO1.

Dilution

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Drosophila SUMO Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

Drosophila SUMO Antibody (N-term) - Protein Information

Name O97102

Cellular Location

Nucleus {ECO:0000256|RuleBase:RU361190}.

Drosophila SUMO Antibody (N-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

Drosophila SUMO Antibody (N-term) - Background

Covalent modification of target lysines by SUMO (small ubiquitin-like modifier) modulates processes such as protein localization, transcription, nuclear transport, mitosis, DNA replication and repair, signal transduction, and viral reproduction. SUMO does not seem to be involved in protein degradation and may in fact function as an antagonist of ubiquitin in the degradation process. In the development of Drosophila, SUMO plays a maternal role in anterior-posterior (A/P) polarity and patterning.
