

**HRH1 Antibody (Center)**  
**Affinity Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP14425c****Specification**

---

**HRH1 Antibody (Center) - Product Information**

Application	IHC-P, WB,E
Primary Accession	<a href="#">P35367</a>
Other Accession	<a href="#">NP_000852.1</a> , <a href="#">NP_001091682.1</a>
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	55784
Antigen Region	273-301

**HRH1 Antibody (Center) - Additional Information****Gene ID** 3269**Other Names**

Histamine H1 receptor, H1R, HH1R, HRH1

**Target/Specificity**

This HRH1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 273-301 amino acids from the Central region of human HRH1.

**Dilution**

IHC-P~~1:10~50

WB~~1:1000

E~~Use at an assay dependent concentration.

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

HRH1 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

**HRH1 Antibody (Center) - Protein Information****Name** HRH1 ([HGNC:5182](#))

**Function** G-protein-coupled receptor for histamine, a biogenic amine that functions as an immune modulator and a neurotransmitter (PubMed:[33828102](#), PubMed:[8280179](#)). Through the H1 receptor, histamine mediates the contraction of smooth muscles and increases capillary permeability due to contraction of terminal venules. Also mediates neurotransmission in the central nervous system and thereby regulates circadian rhythms, emotional and locomotor activities as well as cognitive functions (By similarity).

#### Cellular Location

Cell membrane; Multi-pass membrane protein

#### HRH1 Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.

#### HRH1 Antibody (Center) - Images

HRH1 Antibody (Center) (Cat. #AP14425c) western blot analysis in CEM cell line lysates (35ug/lane). This demonstrates the HRH1 antibody detected the HRH1 protein (arrow).

HRH1 Antibody (Center) (AP14425c) immunohistochemistry analysis in formalin fixed and paraffin embedded human liver tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of HRH1 Antibody (Center) for immunohistochemistry. Clinical relevance has not been evaluated.

#### **HRH1 Antibody (Center) - Background**

Histamine is a ubiquitous messenger molecule released from mast cells, enterochromaffin-like cells, and neurons. Its various actions are mediated by histamine receptors H1, H2, H3 and H4. This gene was thought to be intronless until recently. The protein encoded by this gene is an integral membrane protein and belongs to the G protein-coupled receptor superfamily. It mediates the contraction of smooth muscles, the increase in capillary permeability due to contraction of terminal venules, the release of catecholamine from adrenal medulla, and neurotransmission in the central nervous system. Multiple alternatively spliced variants, encoding the same protein, have been identified. [provided by RefSeq].
