

HRH4 Antibody (Center)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP17035C**Specification**

HRH4 Antibody (Center) - Product Information

Application	WB,E
Primary Accession	O9H3N8
Other Accession	NP_067637.2 , NP_001153638.1
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	44496
Antigen Region	228-256

HRH4 Antibody (Center) - Additional Information**Gene ID** 59340**Other Names**

Histamine H4 receptor, H4R, HH4R, AXOR35, G-protein coupled receptor 105, GPRv53, Pfi-013, SP9144, HRH4, GPCR105

Target/Specificity

This HRH4 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 228-256 amino acids from the Central region of human HRH4.

Dilution

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

HRH4 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

HRH4 Antibody (Center) - Protein Information**Name** HRH4

Synonyms GPCR105

Function The H4 subclass of histamine receptors could mediate the histamine signals in peripheral tissues. Displays a significant level of constitutive activity (spontaneous activity in the absence of agonist).

Cellular Location

Cell membrane; Multi-pass membrane protein

Tissue Location

Expressed primarily in the bone marrow and eosinophils. Shows preferential distribution in cells of immunological relevance such as T-cells, dendritic cells, monocytes, mast cells, neutrophils. Also expressed in a wide variety of peripheral tissues, including the heart, kidney, liver, lung, pancreas, skeletal muscle, prostate, small intestine, spleen, testis, colon, fetal liver and lymph node.

HRH4 Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.

HRH4 Antibody (Center) - Images

HRH4 Antibody (Center) (Cat. #AP17035c) western blot analysis in NCI-H460 cell line lysates (35ug/lane). This demonstrates the HRH4 antibody detected the HRH4 protein (arrow).

HRH4 Antibody (Center) - Background

Histamine is a ubiquitous messenger molecule released from mast cells, enterochromaffin-like cells, and neurons. Its various

actions are mediated by a family of histamine receptors, which are a subset of the G-protein coupled receptor superfamily. This gene encodes a histamine receptor that is predominantly expressed in haematopoietic cells. The protein is thought to play a role in inflammation and allergy reponses. Multiple transcript variants encoding different isoforms have been found for this gene.
