

ICT1 Antibody (C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP20382b

Specification

ICT1 Antibody (C-term) - Product Information

| | |
|-------------------|------------------------|
| Application | IHC-P, WB,E |
| Primary Accession | Q14197 |
| Reactivity | Human |
| Host | Rabbit |
| Clonality | Polyclonal |
| Isotype | Rabbit IgG |
| Antigen Region | 153-179 |

ICT1 Antibody (C-term) - Additional Information

Gene ID 3396

Other Names

Peptidyl-tRNA hydrolase ICT1, mitochondrial, 39S ribosomal protein L58, mitochondrial, MRP-L58, Digestion substraction 1, DS-1, Immature colon carcinoma transcript 1 protein, ICT1, DS1

Target/Specificity

This ICT1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 153-179 amino acids from the C-terminal region of human ICT1.

Dilution

IHC-P~~1:25

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

ICT1 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

ICT1 Antibody (C-term) - Protein Information

Name MRPL58 ([HGNC:5359](#))

Synonyms DS1, ICT1

Function Essential peptidyl-tRNA hydrolase component of the mitochondrial large ribosomal subunit (PubMed:[20186120](#), PubMed:[33878294](#)). Acts as a codon-independent translation release factor that has lost all stop codon specificity and directs the termination of translation in mitochondrion, possibly in case of abortive elongation (PubMed:[33878294](#)). Involved in the hydrolysis of peptidyl-tRNAs that have been prematurely terminated and thus in the recycling of stalled mitochondrial ribosomes (PubMed:[20186120](#), PubMed:[33878294](#)).

Cellular Location
Mitochondrion

Tissue Location
Down-regulated during the in vitro differentiation of HT29-D4 colon carcinoma cells.

ICT1 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

ICT1 Antibody (C-term) - Images

ICT1 Antibody (C-term) (Cat. #AP20382b) western blot analysis in HeLa, Jurkat, U251, MDA-MB453, NCI-H292, K562, ZR-75-1 cell line lysates (35ug/lane). This demonstrates the ICT1 antibody detected the ICT1 protein (arrow).

Immunohistochemical analysis of paraffin-embedded H. colorectal carcinoma section using ICT1 Antibody (C-term)(Cat#AP20382b). AP20382b was diluted at 1:25 dilution. A undiluted biotinylated goat polyvalent antibody was used as the secondary, followed by DAB staining.

Immunohistochemical analysis of paraffin-embedded H. skin section using ICT1 Antibody (C-term)(Cat#AP20382b). AP20382b was diluted at 1:25 dilution. A undiluted biotinylated goat polyvalent antibody was used as the secondary, followed by DAB staining.

ICT1 Antibody (C-term) - Background

Essential peptidyl-tRNA hydrolase component of the mitochondrial large ribosomal subunit. Acts as a codon-independent translation release factor that has lost all stop codon specificity and directs the termination of translation in mitochondrion, possibly in case of abortive elongation. May be involved in the hydrolysis of peptidyl-tRNAs that have been prematurely terminated and thus in the recycling of stalled mitochondrial ribosomes.
