

RNF166 Antibody (Center)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP20484c

Specification

RNF166 Antibody (Center) - Product Information

Application	IF, WB,E
Primary Accession	<u>Q96A37</u>
Other Accession	<u>Q6J1I7, Q3U9F6</u>
Reactivity	Human, Mouse
Predicted	Rat
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	26122
Antigen Region	71-97

RNF166 Antibody (Center) - Additional Information

Gene ID 115992

Other Names RING finger protein 166, RNF166

Target/Specificity This RNF166 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 71-97 amino acids from the Central region of human RNF166.

Dilution IF~~1:25 WB~~1:1000 E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions RNF166 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

RNF166 Antibody (Center) - Protein Information

Name RNF166

Function E3 ubiquitin-protein ligase that promotes the ubiquitination of different substrates (PubMed:<u>27880896</u>). In turn, participates in different biological processes including interferon production or autophagy (PubMed:<u>26456228</u>, PubMed:<u>27880896</u>). Plays a role in the activation of RNA virus-induced interferon-beta production by promoting the ubiquitination of TRAF3 and TRAF6 (PubMed:<u>26456228</u>). Also plays a role in the early recruitment of autophagy adapters to bacteria (PubMed:<u>27880896</u>). Mediates 'Lys-29' and 'Lys-33'-linked ubiquitination of SQSTM1 leading to xenophagic targeting of bacteria and inhibition of their replication (PubMed:<u>27880896</u>).

Cellular Location Cytoplasm.

RNF166 Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

RNF166 Antibody (Center) - Images

Fluorescent image of NIH/3T3 cells stained with RNF166 Antibody (Center)(Cat#AP20484C). AP20484C was diluted at 1:25 dilution. An Alexa Fluor 488-conjugated goat anti-rabbit lgG at 1:400 dilution was used as the secondary antibody (green). Cytoplasmic actin was counterstained with Alexa Fluor® 555 conjugated with Phalloidin (red).

RNF166 Antibody (Center) (Cat. #AP20484c) western blot analysis in 293,mouse NIH/3T3 cell line and testis tissue lysates (35ug/lane).This demonstrates the RNF166 antibody detected the RNF166 protein (arrow).
