

## PD L1 Antibody (C-Term)

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP22365b

## **Specification**

## PD L1 Antibody (C-Term) - Product Information

WB.E Application **Primary Accession 09NZ07** Reactivity Human Predicted Human Host **Rabbit** Clonality polyclonal Isotype Rabbit IgG Calculated MW 33275

## PD L1 Antibody (C-Term) - Additional Information

#### **Gene ID 29126**

### **Other Names**

Programmed cell death 1 ligand 1, PD-L1, PDCD1 ligand 1, Programmed death ligand 1, B7 homolog 1, B7-H1, CD274, CD274, B7H1, PDCD1L1, PDCD1LG1, PDL1

#### Target/Specificity

This PD L1 antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 252-290 amino acids from the human region of human PD L1.

# **Dilution**

WB~~1:1000

E~~Use at an assay dependent concentration.

### **Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

#### Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

## **Precautions**

PD L1 Antibody (C-Term) is for research use only and not for use in diagnostic or therapeutic procedures.

## PD L1 Antibody (C-Term) - Protein Information

## Name CD274 (<u>HGNC:17635</u>)

Function Plays a critical role in induction and maintenance of immune tolerance to self

(PubMed: 11015443, PubMed: 28813410, PubMed: 28813417, PubMed: 31399419). As a ligand for the inhibitory receptor PDCD1/PD-1, modulates the activation threshold of T-cells and limits T-cell effector response (PubMed: 11015443, PubMed: 28813410, PubMed: 28813417, PubMed: 36727298). Through a yet unknown activating receptor, may costimulate T-cell subsets that predominantly produce interleukin-10 (IL10) (PubMed: 10581077). Can also act as a transcription coactivator: in response to hypoxia, translocates into the nucleus via its interaction with phosphorylated STAT3 and promotes transcription of GSDMC, leading to pyroptosis (PubMed: 32929201).

### **Cellular Location**

Cell membrane; Single-pass type I membrane protein. Early endosome membrane; Single-pass type I membrane protein. Recycling endosome membrane; Single-pass type I membrane protein. Nucleus. Note=Associates with CMTM6 at recycling endosomes, where it is protected from being targeted for lysosomal degradation (PubMed:28813417). Translocates to the nucleus in response to hypoxia via its interaction with phosphorylated STAT3 (PubMed:32929201). [Isoform 2]: Endomembrane system; Single-pass type I membrane protein

#### **Tissue Location**

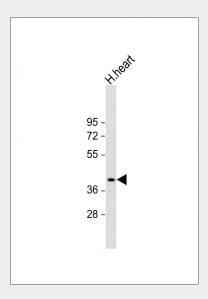

Highly expressed in the heart, skeletal muscle, placenta and lung. Weakly expressed in the thymus, spleen, kidney and liver. Expressed on activated T- and B-cells, dendritic cells, keratinocytes and monocytes.

## PD L1 Antibody (C-Term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- <u>Immunofluorescence</u>
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

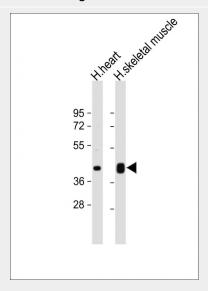

## PD L1 Antibody (C-Term) - Images

Anti-PD L1 Antibody (C-Term) at 1:1000 dilution + Human heart whole cell lysate Lysates/proteins

at 20  $\mu$ g per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 44 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

All lanes: Anti-PD L1 Antibody (C-Term) at 1:1000 dilution Lane 1: Human heart lysate Lane 2: Human skeletal muscle lysate Lysates/proteins at 20  $\mu$ g per lane. Secondary Goat Anti-Rabbit lgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size: 44 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

## PD L1 Antibody (C-Term) - Background

Involved in the costimulatory signal, essential for T- cell proliferation and production of IL10 and IFNG, in an IL2- dependent and a PDCD1-independent manner. Interaction with PDCD1 inhibits T-cell proliferation and cytokine production.
