

TPST1 Antibody (C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP2321b**Specification**

TPST1 Antibody (C-term) - Product Information

Application	WB,E
Primary Accession	O60507
Other Accession	Q3KR92 , O70281 , NP_003587
Reactivity	Human, Mouse
Predicted	Rat
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	42188
Antigen Region	336-366

TPST1 Antibody (C-term) - Additional Information**Gene ID** 8460**Other Names**

Protein-tyrosine sulfotransferase 1, Tyrosylprotein sulfotransferase 1, TPST-1, TPST1

Target/Specificity

This TPST1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 336-366 amino acids from the C-terminal region of human TPST1.

Dilution

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

TPST1 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

TPST1 Antibody (C-term) - Protein Information**Name** TPST1

Function Catalyzes the O-sulfation of tyrosine residues within acidic motifs of polypeptides, using 3'-phosphoadenylyl sulfate (PAPS) as cosubstrate.

Cellular Location

Golgi apparatus membrane; Single-pass type II membrane protein

Tissue Location

Ubiquitous. Detected in heart, brain, placenta, lung, liver, skeletal muscle, kidney and pancreas

TPST1 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

TPST1 Antibody (C-term) - Images

TPST1 Antibody (K351) (Cat. #AP2321b) western blot analysis in MDA-MB231 cell line lysates (35ug/lane). This demonstrates the TPST1 antibody detected the TPST1 protein (arrow).

Western blot analysis of TPST1 (arrow) using rabbit polyclonal TPST1 Antibody (K351) (Cat. #AP2321b). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected (Lane 2) with the TPST1 gene.

TPST1 Antibody (K351) (Cat. #AP2321b) western blot analysis in mouse lung tissue lysates (35ug/lane). This demonstrates the TPST1 antibody detected the TPST1 protein (arrow).

TPST1 Antibody (C-term) - Background

The ADP-ribosylation factor (Arf) family are highly conserved members of the Ras superfamily of regulatory GTP-binding proteins. Arf proteins participate in routing of intracellular proteins to and within the Golgi complex. Cellular functions include maintenance of organelle integrity, coat protein assembly, as an activator of phospholipase D. The Arf family is divided functionally into the Arf and the Arf-like (Arl) proteins. The ARF proteins are categorized as class I (ARF1, ARF2, and ARF3), class II (ARF4 and ARF5) and class III (ARF6) and members of each class share a common gene organization.
