

FDPS Antibody
Rabbit mAb
Catalog # AP92862**Specification****FDPS Antibody - Product Information**

Application **WB, IHC, FC**
Primary Accession [P14324](#)
Clonality **Monoclonal**

Other Names

Farnesyl diphosphate synthase; Fdps; FPP synthase; FPP synthetase; FPPS; FPS; Geranyltranstransferase;

Isotype **Rabbit IgG**
Host **Rabbit**
Calculated MW **48275 Da**

FDPS Antibody - Additional Information

Dilution **WB~~1:1000
IHC~~1:100~500
FC~~1:10~50**

Purification **Affinity-chromatography**
Immunogen **A synthesized peptide derived from human FDPS**

Description **Key enzyme in isoprenoid biosynthesis which catalyzes the formation of farnesyl diphosphate (FPP), a precursor for several classes of essential metabolites including sterols, dolichols, carotenoids, and ubiquinones.**

Storage Condition and Buffer **Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.**

FDPS Antibody - Protein Information

Name FDPS ([HGNC:3631](#))

Synonyms FPS, KIAA1293

Function

Key enzyme in isoprenoid biosynthesis which catalyzes the formation of farnesyl diphosphate (FPP), a precursor for several classes of essential metabolites including sterols, dolichols, carotenoids, and ubiquinones. FPP also serves as substrate for protein farnesylation and geranylgeranylation. Catalyzes the sequential condensation of isopentenyl pyrophosphate with the allylic pyrophosphates, dimethylallyl pyrophosphate, and then with the resultant

geranylpyrophosphate to the ultimate product farnesyl pyrophosphate.

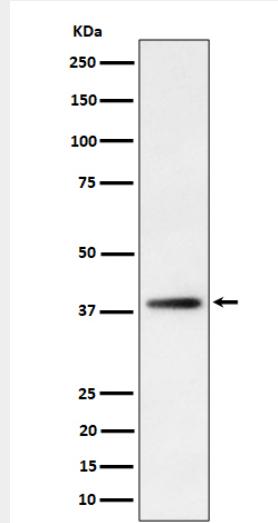

Cellular Location

Cytoplasm.

FDPS Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
