

Anti-IL-5 Reference Antibody (Abgenix anti-IL-5) Recombinant Antibody Catalog # APR10958

### **Specification**

### Anti-IL-5 Reference Antibody (Abgenix anti-IL-5) - Product Information

Application Primary Accession Reactivity Clonality Isotype Calculated MW FC, Kinetics, Animal Model P05113 Human, Mouse Monoclonal IgG4SP 150 KDa

#### Anti-IL-5 Reference Antibody (Abgenix anti-IL-5) - Additional Information

Target/Specificity IL-5

**Endotoxin** < 0.001EU/ μg,determined by LAL method.

Conjugation Unconjugated

Expression system CHO Cell

Format

Purified monoclonal antibody supplied in PBS, pH6.0, without preservative. This antibody is purified through a protein A column.

#### Anti-IL-5 Reference Antibody (Abgenix anti-IL-5) - Protein Information

Name IL5

Function

Homodimeric cytokine expressed predominantly by T-lymphocytes and NK cells that plays an important role in the survival, differentiation, and chemotaxis of eosinophils (PubMed:<a href="http://www.uniprot.org/citations/2653458" target="\_blank">2653458</a>, PubMed:<a href="http://www.uniprot.org/citations/9010276" target="\_blank">9010276</a>). Also acts on activated and resting B-cells to induce immunoglobulin production, growth, and differentiation (By similarity). Mechanistically, exerts its biological effects through a receptor composed of IL5RA subunit and the cytokine receptor common subunit beta/CSF2RB (PubMed:<a href="http://www.uniprot.org/citations/1495999" target="\_blank">22528658</a>). Binding to the receptor leads to activation of various kinases including LYN, SYK and JAK2 and thereby propagates signals through the RAS-MAPK and JAK-STAT5 pathways respectively (PubMed:<a href="http://www.uniprot.org/citations/7613138" target="\_blank">7613138</a>).

**Cellular Location** Secreted.

**Tissue Location** Present in peripheral blood mononuclear cells.

# Anti-IL-5 Reference Antibody (Abgenix anti-IL-5) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
