

**Sheep IgG F(ab')<sub>2</sub> Texas Red™**  
**Catalog # ASR1298****Specification****Sheep IgG F(ab')<sub>2</sub> Texas Red™ - Product Information**

|                       |                                                                               |
|-----------------------|-------------------------------------------------------------------------------|
| Description           | <b>SHEEP IgG F(ab')<sub>2</sub> fragment Texas Red™ conjugated</b>            |
| Conjugate             | <b>Texas Red®</b>                                                             |
| Physical State        | <b>Lyophilized</b>                                                            |
| Host Isotype          | <b>IgG F(ab')<sub>2</sub></b>                                                 |
| Buffer                | <b>0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2</b>             |
| Species of Origin     | <b>Sheep</b>                                                                  |
| Reconstitution Volume | <b>1.0 mL</b>                                                                 |
| Reconstitution Buffer | <b>Restore with deionized water (or equivalent)</b>                           |
| Stabilizer            | <b>10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free</b> |
| Preservative          | <b>0.01% (w/v) Sodium Azide</b>                                               |

**Sheep IgG F(ab')<sub>2</sub> Texas Red™ - Additional Information****Shipping Condition**

Ambient

**Purity**

This product was prepared from normal serum by delipidation, salt fractionation, ion exchange chromatography followed by pepsin digestion and extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Sheep IgG, anti-Sheep IgG F(ab')<sub>2</sub> and anti-Sheep Serum. No reaction was observed against anti-Sheep IgG F(c) or anti-Pepsin.

**Storage Condition**

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Precautions Note**

This product is for research use only and is not intended for therapeutic or diagnostic applications.

**Sheep IgG F(ab')<sub>2</sub> Texas Red™ - Protein Information****Sheep IgG F(ab')<sub>2</sub> Texas Red™ - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)
