**Anti-Golden Syrian Hamster Serum Secondary Antibody - Product Information**

|                       |                                                                   |
|-----------------------|-------------------------------------------------------------------|
| Description           | <b>Anti-GOLDEN SYRIAN HAMSTER SERUM (RABBIT) Antibody</b>         |
| Host                  | <b>Rabbit</b>                                                     |
| Conjugate             | <b>Unconjugated</b>                                               |
| Target Species        | <b>Golden Syrian Hamster</b>                                      |
| Clonality             | <b>Polyclonal</b>                                                 |
| Physical State        | <b>Lyophilized</b>                                                |
| Host Isotype          | <b>Antiserum</b>                                                  |
| Buffer                | <b>0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2</b> |
| Immunogen             | <b>Hamster serum proteins</b>                                     |
| Reconstitution Volume | <b>2.0 mL</b>                                                     |
| Reconstitution Buffer | <b>Restore with deionized water (or equivalent)</b>               |
| Stabilizer            | <b>None</b>                                                       |
| Preservative          | <b>0.01% (w/v) Sodium Azide</b>                                   |

**Anti-Golden Syrian Hamster Serum Secondary Antibody - Additional Information****Shipping Condition**

Ambient

**Purity**

This product was prepared from polyspecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in multiple precipitin arcs against Hamster Serum.

**Storage Condition**

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Precautions Note**

This product is for research use only and is not intended for therapeutic or diagnostic applications.
